

EagleEyeERP
THE SHOP MANAGEMENT SOFTWARE

SINGLE SOURCE SOLUTION

- CRM
- WORKFLOW
- SHOP FLOOR VISIBILITY
- SCHEDULING
- INVENTORY
- ACCOUNTING
- AUTOMATION
- REPORTING

SIMPLE IMPLEMENTATION, START TODAY!

Our system allows you to begin working immediately
(no 90-day+ setup period required).

Hosted in the cloud, EagleEye connects your company whether in an office, on the shop floor, in multiple locations or on the road.

At EagleEye:

We are cabinet/closet people, therefore, we created an ERP for the "Real World" of cabinetry and closets!

Our ERP was born out of a necessity for a comprehensive system that tracked all of the moving parts without the need to enter information multiple times in multiple softwares.

We have extensively tested our ERP in a "real world" cabinetry/closet production environment, so you do not have to.

We provide an ERP that works out of the box and will not require timely & expensive customizations.

We offer an affordable & tested ERP for the cabinet/ closet industry that seamlessly closes the loop from initial contact to final invoicing.

- Single Source of Truth
- Integrated Email and Calendar
- Automated Shop Flow (nested product flow)
- Automated Inventory & Accounting
- CAD/CAM Integration

Single Source of Truth

COMPLETE MANAGEMENT SOFTWARE FOR CABINETRY & CLOSETS

Finally, an ERP systems that is easy to setup, easy to use & requires minimal training.

We designed our software for the real world of Cabinetry & closets with real world people in mind.

MANUFACTURING SOLUTION!

- Manage Production whether Cutting by Hand or Utilizing CNC Nests
- Designed for Cabinet / Closet People by Cabinet / Closet People
- Simple, Integrated & Automated
- Online Access: Wired, Wireless & Remote
- Dealer/ Customer Portal Module Available
- No "In-house" IT Professional or "Project Champion" Required. Designed to be used by any Typical "Windows" User.
- A Tool to Manage your Company, not another Tool that has to be Managed.

EagleEye is for every size company from a small shop to a large-scale manufacturing environment. No matter the size of your cabinet or closet business, information is organized and easy to access. EagleEye will manage EVERY step from the very first customer contact to the final invoice. EagleEye not only allows Management to view production progress with the click of a button, but also provides shop floor workers with clear & simple operations (all of this and more without extensive setup).

easy to use in small and large scale environments

SMALLER SHOPS

Add members to your team without having to hire & manage more people in the office or on the shop floor. EagleEye, with its automated and easy to use interface, allows you to plan & produce like you would normally (without all the manual lists). Scheduling, ordering, inventory & accounting are easily and automatically managed (without a computer expert or support staff).

EagleEye will be your "Employee of the Month" every month, without missing days, forgetting, or talking back

LARGER MANUFACTURERS

As your shop grows; the number of people, the amount of information, and intracompany communication become the challenge.

EagleEye is your *Single Source of Truth!*

The sales cycle is automated through user defined steps and operations for presales, sales, engineering, inventory, accounting, shop floor, packaging, shipping & even installation.

CUSTOM REPORTING

Reports are customized directly in the reporting tool allowing management, supervisors and staff to review performance.

TOUCHSCREEN, PC, MAC, TABLET

Available on all types of 8" and larger displays, EagleEye allows anyone to access and work from a variety of locations, all with the touch of a button. Wired or Wireless.

USER CONTROL

EagleEye allows a variety of user levels & levels of control for each users access.

- Owner level offers open access
- Office/Admin offers the ability to input/curate data
- Shop access allows executing predefined tasks.

EagleEye: BY CABINET PEOPLE, FOR CABINET PEOPLE

At every step, EagleEye is there to simplify your workload as an automated employee.
